# WHO WE ARE

YHY BC is one of the 7 branches of Youth Helping Youth (YHY), a registered non-profit organization that aims to promote youth development and success through digital marketing opportunities to youth and creating youth-centric opportunities. Before COVID-19, BHY hosted various in-person events, including university panels, workshops, fundraisers, and fairs. Currently, in the midst of the pandemic, BHY BC has hosted online university panels, game nights for our Discord members, and other youth-oriented events.

## WHY ARE WE DIFFERENT?

Unlike other non-profit organizations, BHY is run entirely by youth volunteers who dedicate themselves to helping other youth in their communities by connecting them to opportunities and other diverse like-minded youth. We strive to positively impact our communities and recognize that the youth today are our future generation of doctors, engineers, scientists, and academics. We hope that our efforts make a difference in the lives we touch.

# WHAT IS YOUTH HACKS 2022?

YouthHacks 2022 is a hackathon hosted by YHY BC from March 18th-20th, 2022 that will bring together youth for a weekend full of learning. A variety of events will be hosted to develop participant knowledge in STEAM fields and various workshops hosted by respected speakers will give participants real-life insights into the world of STEAM!

Attendees will network with diverse like-minded youth worldwide, learn about coding and programming, and be inspired to explore on their own. Our goal is to make YouthHacks an annual event where we can connect students to the possibilities of technology while providing students with networking opportunities and resources to explore STEAM. With a theme of helping youth, YouthHacks 2022 will help inspire participants to develop and consider thoughtful solutions towards helping youth back in our communities. We strive to present youth with opportunities within the STEAM field that they otherwise would not receive due to the lack of accessibility in schools.

# WHY SPONSOR US?

YouthHacks provides a unique opportunity for your company to interact with the next generation of youth worldwide. YouthHacks 2022 will bring together the best that YHY BC has to offer. By sponsoring our event, you will be able to showcase your brand and connect with the future generation of youth.

Additionally, being at our event will provide you with the opportunity to connect with students and help them find their place in the vast field of STEAM.

Since our event is mainly sponsor funded, we need your help to make the event the success that it can be.

# THANK YOU!

With your support, we can create opportunities and elevate young voices in our communities. We believe that with your help, we can work together and make a long-lasting difference in our communities.

If there is a unique way our organization can suit your needs, please let us know! For any inquiries or questions, feel free to send an email to [bc@youthhelpingyouth.org](mailto:bc@youthhelpingyouth.org). We look forward to hearing from you soon!

Thank you for investing in the future.
